Registration of Clinical Trials

The *Journal of Hepatology* endorses the policy of the WHO and the International Committee of Medical Journal Editors (ICMJE) on the registration of clinical trials. Therefore, any trial that starts recruiting on or after July 1, 2005 should be registered in a publicly owned, publicly accessible registry and should satisfy a minimal standard dataset. Trials that started recruiting before that date will be considered for publication if registered before September 13, 2005.

More detailed information regarding clinical trials and registration can be found in *New Engl J Med* 2004;351:1250–1251 and *New Engl J Med* 2005;352:2437–2438.

Cover image: This month's cover features the article "Liver stiffness not fatty liver disease is associated with atrial fibrillation: The Rotterdam study" by Laurens van Kleef *et al.* on pp. 931–938. The cover displays a liver stiffness assessment by transient elastography colliding with an ECG trace depicting atrial fibrillation. Artwork by Marcelo Castro.
